

NEMA's Role With Housing

NEBRASKA

Good Life. Great Strength.

Earl Imler

Operations Section Manager

The State (NEMA) Comes In And Takes Over

This is a very common misconception, all events are under the local jurisdictions control.

What does NEMA do?

- Integrate in the local incident command, if asked with a field team
- Support the local authorities with personnel to fill gaps in their command structure
- Provide resources through state agencies and stakeholder organizations
- Guide and assist with tracking costs that could be recovered at the appropriate time
- Aid with long term recovery plans and measures
- Be the conduit for applicable government programs

State Emergency Operations Center (SEOC)

Physical location where those resources and stakeholders gather to support the local Incident Commander (IC)

Volunteers and Others Active in Disasters (VOAD) State and Federal Partners

Emergency Support Functions (ESF's)
