## **ESF-15 Private Sector Division Transitions to FEMA Regional Office**

This is the last edition of *eBrief* in Nebraska. Private Sector Division activities will be transitioned to Jonathan “Scott” Weinberg, the private sector liaison at FEMA’s Region VII Office in Kansas City, MO. Scott can be reached by email at [Jonathan.Weinberg@fema.dhs.gov](mailto:Jonathan.Weinberg@fema.dhs.gov) or by calling **816-283-7061**.

There are numerous ways in which the private sector can get involved in disaster response and recovery efforts and play a vital role in helping a community return to normalcy.

For more information on how your business or organization can become proactive in disaster response and recovery efforts and emergency preparedness planning, please visit [FEMA.gov/Private-Sector](http://FEMA.gov/Private-Sector) or contact Scott at the email address or phone number above.

## **Public-Private Partnerships | Building Better Resiliency—Together**

FEMA officials believe that everybody benefits when the public sector and the private sector collaborate before, during and after disasters. As part of the same team, we are better able to help people, leverage resources and serve America.

Recognizing the value of public-private partnerships, FEMA offers a variety of tools—such as online training—for business owners and managers who are interested in boosting public-private partnerships, improving disaster communications and optimizing resources. Tools include:

- **National Business Emergency Operations Center** | [FEMA.gov/nbeoc](http://FEMA.gov/nbeoc)
- **Training Opportunities** | [FEMA.gov/Emergency-Management-Training-Opportunities](http://FEMA.gov/Emergency-Management-Training-Opportunities)
- **Training Course IS-660: Building Public-Private Partnerships** | [FEMA.gov/EMIWeb/IS/courseOverview.aspx?code=IS-660](http://FEMA.gov/EMIWeb/IS/courseOverview.aspx?code=IS-660)
- **Training Course IS-662: Improving Preparedness and Resilience through Public-Private Partnerships** | [FEMA.gov/is/courseoverview.aspx?code=IS-662](http://FEMA.gov/is/courseoverview.aspx?code=IS-662)

For more information on public-private partnerships, visit [FEMA.gov/Private-Sector](http://FEMA.gov/Private-Sector) or contact FEMA’s Private Sector Division in the Office of Response & Recovery at [FEMA-Private-Sector@fema.dhs.gov](mailto:FEMA-Private-Sector@fema.dhs.gov).

## Disaster Preparedness Makes Good Business Sense for Nebraskans

A survey commissioned by Nationwide insurance company in 2015 found that three in four small business owners do not have a disaster recovery plan in place. But more than half of those surveyed said it would take at least three months to recover from a disaster.

In Nebraska, more than 1,000 businesses were affected by the winter storm that resulted in a major disaster declaration in March 2019. While still assessing damage from the recent spring floods, the Nebraska Emergency Management Agency (NEMA) and the Federal Emergency Management Agency (FEMA) urge all business owners and managers to prepare now for the next disaster.

“The sooner the private sector bounces back after a disaster, the quicker the whole community recovers,” said Constance C. Johnson-Cage of FEMA, who is the federal coordinating officer for the March storm. “Survivors need to feed their family, fill their gas tank and get back to work.”

“Better yet, businesses that can weather a storm can supply vital resources, minimize hardships and jumpstart recovery,” said Earl Imler of NEMA, who serves as the state coordinating officer. “Those businesses that have a disaster preparedness plan—and implement it—have less damage, loss and downtime than those without a plan.”

To promote both readiness and resilience, Nebraska formed a coalition of leaders from key state agencies and businesses called the Nebraska Preparedness Partnership (NPP) in 2014. NPP offers training, exercises and networking for businesses of all sizes.

“A disaster preparedness plan protects people, property and data,” said Sandra Hobson, the director of NPP. “A plan must ensure continuity of operations for a wide range of scenarios—even total destruction. Provisions should be made to relocate to a pre-identified site, retrieve business records and carry on with minimal staff.”

To make your enterprise more resilient, Hobson advises business owners:

- Conduct a risk assessment to identify potential hazards.
- Develop procedures to quickly evacuate or shelter in place. Then run drills to practice.
- Back up your records and critical data. Keep a copy offsite or in the cloud.
- Create a crisis communications plan to keep your employees, customers, vendors and the public up to date on your operations.
- Install a generator for your building’s essential electrical circuits in case of a power outage.

ACCESS TO DISASTER HELP AND RESOURCES

*Disaster recovery assistance is available without regard to race, color, religion, nationality, sex, age, disability, English proficiency or economic status. If you or someone you know has faced discrimination, call FEMA toll-free at 800-621-3362 or 800-462-7585 (TTY).*

**Weather the Storm: Download the FEMA App today**

*The U.S. Small Business Administration is the federal government's primary source of money for the long-term rebuilding of disaster-damaged private property. SBA helps businesses of all sizes, private nonprofit organizations, homeowners and renters fund repairs or rebuilding efforts and cover the cost of replacing lost or disaster-damaged personal property. For more information, applicants may contact SBA's Disaster Assistance Customer Service Center at 800-659-2955. TTY users may also call 800-877-8339. Applicants may also email [disastercustomerservice@sba.gov](mailto:disastercustomerservice@sba.gov) or visit SBA at [www.SBA.gov/disaster](http://www.SBA.gov/disaster).*
